

Sauer Compressors USA

TRAINING PROGRAMS

Sauer Compressors USA offers factory direct training at our facility in Stevensville, Maryland. Our comprehensive training program is designed to suit all students with varying skill levels. Our courses are instructed by senior members of our service department to ensure the students gain knowledge not only from our course content but also field experience. We strive to provide students with the most beneficial training course on the market. After completion of the maintenance course, personnel will be certified to perform life time warranty repairs.

Types of training programs

- Advanced Maintenance Course
- Operator Training

Advanced Maintenance Course

Classroom Instruction

- Review of company history
- Compressor theory of operation
- Troubleshooting
- Compressor literature & Operating parameters

Hands-On Training

- Complete tear down and reassembly
- Component review
- Review proper maintenance interval procedures

Written Test

- Open discussion & Review
- Issue of certificate

Operator Training

Classroom & Hands-On Instruction

- Attendees will be exposed to compressor theory and safe day-to-day operation of the compressor and controller.
- Attendees will be shown minor valve inspection and daily checks.
- This training course will be for a duration of 1 day.
- Cost - \$1,000.00 per student
